PUMPING SYSTEMS

EXPERIENCE FRANKLIN

AGRICULTURAL SOLUTIONS

Relying on Mother Nature to irrigate crops and pastures or provide drinking water for animals can be risky, especially when unpredictable drought periods hit the hardest. Franklin Electric's agricultural pumping systems provide stability to increase output, better predict crop yields and keep your livestock strong and hydrated.

SUBMERSIBLE PUMPS & VERTICAL LINESHAFT TURBINES

Franklin Electric offers a wide array of submersible pumps and vertical lineshaft turbines designed for the movement of water. Our water pumping solutions feature proven components and provide superior performance.

PRODUCTS

- 4" High Capacity Pumps
- 6" 4400 Submersible Radial Pumps
- 6" and 8" SR Turbine Pumps
- 6" SSR Series Submersible Turbine Pumps
- 5", 6", 8", and 9" STS Turbine Pumps
- 6", 8" and 10" SSI Submersible Turbine Pumps
- 6" - 12" FST Series Submersible Turbine Pumps
- 5" - 42" FVT Series Vertical Lineshaft Turbine Pumps
- 8" - 30" FAF Series Axial Flow Vertical Turbine Pumps
- 8" - 30" FMF Series Mixed Flow Vertical Turbine Pumps

SURFACE PUMPS

Franklin Electric's line of surface pumps cover a wide range of configurations and applications, from small residential jobs to large industrial and agricultural applications.

PRODUCTS

- Self-Priming Pumps
- Centrifugal Pumps
- Multi-Stage Pumps
- Gas Engine Pumps

MOTORS & CONTROLS

Franklin Electric offers a complete line of submersible motors and pump drivers for agricultural pumping applications. Franklin Electric also offers single-phase controls, which are an integral part of a submersible motor power system.

PRODUCTS

- Control Boxes
- Vertical Hollow Shaft Motors
- 4", 6", 8", 10", & 12" Submersible Motors
- Gear Drives
- MagForce™ High Efficiency Motor System

DRIVES & PROTECTION

Designed for large or small applications, Franklin Electric offers innovative drive and control options that require minimal adjustments for simple installation and operation. From providing constant pressure for residential well systems to moving mass volumes of water, trust Franklin for your residential, agricultural, commercial, and municipal water pumping system needs.

PRODUCTS

Variable Frequency Drives

- Cerus® X-Drive
- SubDrive Connect
- SubDrive Connect Plus

Protection

- Pumptec and Pumptec-Plus
- SubMonitor Connect

Control Panel/Pump Starter

- SubMonitor Connect Starter
- SmartSTART Pump Starter
- Standard Pump Starter

Soft Starters

- Standard Pump Soft Starter

PACKAGED SYSTEMS

Franklin Electric's packaged systems offer increased value and convenience by combining motor, pump, and control, all in one package.

PRODUCTS

- SubDrive QuickPAK
- SolarPAKs (see below)

SOLAR

Using Franklin Electric's quality components and innovative thinking, we have "harnessed the power of the sun" to provide a clean energy method of moving and pumping water.

PRODUCTS

- Photon™ SolarPAK, 1/2 - 10 hp
- Photon™ HR SolarPAK
- SubDrive SolarPAK, 0.75 - 3 hp
